

## LEGAL NOTICE

The Miami County Park District is in the process of receiving a Clean Ohio Assistance Fund grant to perform a Phase II Environmental Assessment at the Piqua Power Plant, 919 S. Main St., Piqua and is requesting statement of qualifications (RFQ) from interested consultants to provide the following services:

1. Provide technical and administrative services, under the direction of the Park District and the City of Piqua to implement the Phase II Environmental Assessment activities as per the Clean Ohio Assistance Fund grant.
2. Have in-house capabilities and expertise in the area of environmental remediation and extensive familiarity with the Clean Ohio Fund and Voluntary Action Program regulations concerning such.

The following factors and information will be taken into account in selecting a consultant:

- Experience with the Clean Ohio Fund and Voluntary Action Program.
- Knowledge of Clean Ohio Assistance Fund and Clean Ohio Revitalization Program regulations
- Brownfield assessment experience
- Ability to meet the activity/reporting deadlines to complete the project
- Qualifications of staff to undertake contracted obligations
- References relative to prior performance

The Park District will contract with the consultant judged by the City and Park District to be best able to provide the services. The Park District reserves the right to reject any or all proposals.

The full Request for Qualifications (RFQ) document can be obtained from the City of Piqua Development Department at 201 W. Water St., Piqua, Ohio or downloaded from [www.piquaoh.org](http://www.piquaoh.org). Statements of qualifications shall be submitted no later than Friday, April 2, 2010 at 3:00 p.m.

Return statements and direct all questions to:

William Lutz  
Development Program Manager, City of Piqua
