The Community Reinvestment Area Program is a statewide tax incentive program that is managed and administered by local municipalities and counties throughout Ohio. The program provides property tax abatements on the increased assessed value from an investment in real property. Taxes are abated for the maximum period specified below for increases in property values added to the tax rolls after a project is certified by the Community Reinvestment Area program. Taxes are not reimbursed or abated for investments that are on the tax rolls prior to certification of the project.

To qualify for the Community Reinvestment Area tax abatement, the applicant must make an investment in real property meeting the following thresholds:

	\$25,000 to \$50,000	\$50,000 to \$100,000	\$100,000 or More
Commercial and Industrial Project	5 years 100% exemption	10 years 100% exemption	12 years 100% exemption * Note: New Construction Projects over \$100,000 are exempted for 15 years.

For commercial and industrial projects in CRA Areas #1-#5, the Development Department will verify the application, inspect the premises before and after completion of the project and certify the project. Upon a completed application and certification, the Development Department will forward these materials to the Office of the County Auditor. Please note that certified projects are required to be annually visited by City Staff to ensure that all dwelling units are in good repair and meet applicable codes and standards.
