Intersection Improvements Study – Traffic Counts

Kleingers & Associates out of West Chester, Ohio, will be conducting traffic counts at various intersections throughout the City within the next two weeks. These counts are being taken as a part of the overall Intersection Improvements Study. This study is a result of recommendations from the City of Piqua's recent Comprehensive Plan Update. The goal of the study is to identify intersections within the study area that need modifications to existing equipment, operations and/or layout.

The following is the tentative schedule for the collection of the traffic data:

Week of August 4, 2008

Broadway at Ash
Broadway at High
Broadway at Park
College at North
Downing at Greene
Downing at High
Main at Ash
Main at Greene
Roosevelt at Wood
Wayne at Greene

Week of August 11, 2008

College at Ash
College at Greene
College at High
College at Water
College at Wood

College at Young
Downing at Ash
McKinley at Clark
South at Downing
South at Roosevelt

If you have any questions concerning this project, please contact Chris Schmiesing at the City of Piqua Planning and Zoning Department at (937) 778-2049.
